

Parents and guardians, please use the email that you would have provided to the school as your username.

Parent & Student Website: <https://pei.powerschool.com/public>

Apple App: <https://apps.apple.com/app/id973741088>

Android App: <https://play.google.com/store/apps/details?id=com.powerschool.portal>

* When you first use the PowerSchool app, you will need to enter the following district code: CTZP

Students use their school network login and password to access PowerSchool. For students in grades 9-12, PowerSchool passwords will be re-set from time to time.

If grade 9 students know their current password and can log in, they can manage their passwords using the Account Preferences page in the public portal.

If they are unable to log in, they can use the *Forgot Password* function of the web portal. They will be asked for their username (their network account ID) and their email address. Students cannot use the *Reset Password* function of the app - they must use the web portal.

If you are having difficulty, please reach out to any of the following of our Powerschool support people at Stonepark:

Mark Rooney mwrooney@edu.pe.ca

Stephen MacSwain sdmacswain@edu.pe.ca

Sarah Vos sjvos@edu.pe.ca
